About Us

Founded in 2021 in Hyderabad, FERAX BIOTECH PVT. LTD. has quickly gained industry recognition for its top-tier biological Products. Our diverse portfolio includes crops Spray, antagonistic fungi, plant hormone balancer, organic hormone balancer, and more, all formulated with 100% organic micro and macro nutrients to combat nutrient deficiencies in crops. We are also known for our organic plant protector, antiviral plant protector, bio plant protector, and various growth promoters like seaweed extract granules.

Our success is built on a commitment to quality, competitive pricing, and punctual delivery, earning us praise nationwide. We prioritize customer satisfaction with round-the-clock support and a network of FERAX BIOTECH PVT. LTD. dealers for personalized assistance.

Spanning a vast area, our advanced infrastructure boasts state-of-the-art technology and a high-capacity manufacturing unit, ensuring efficient operations and cost-effective production. Supported by a team of skilled professionals with extensive domain knowledge, we continuously strive to meet the diverse needs of our esteemed clientele. Our ultimate goal is to serve farmers and their stakeholders with unparalleled dedication and excellence.

Our Products

Crop Nutrition

Spark enhances plant growth and development with 100% absorption and bioavailability of nutrients in proteino-lacto-gluconate form. Derived from a biotech fermentation process, SPARK is eco-friendly, soil-friendly, user-friendly, toxin-free, and 100% water-soluble. It prevents and corrects nutrient deficiencies and is completely biodegradable. Application: Mix 2-3 ml of SPARK per liter of water and spray as a foliar application. Compatible with all commonly used pesticides and fertilizers. Dosage may vary based on crop and soil nutrient deficiency.

Mega Power contains Nitrogen, Phosphorus and Potash with beneficial amino and organic acids. It increases the biological reactions in plant. It shows excellent effect on crops in all stages. It increases the quality and yield. **Crops:** All type of crops. **Dosage:** 2-3ml/1.0L water use as a foliar spray Available packing: 250ml, 500ml, 1000ml

Nutrigold it is specially developed product through fermentation technology to address nutrients deficiency in plant. Nutrigold is, totally bio available to the plant. Nutrigold plays a major role in development of pollen, flowers, fruits and it is useful in photosynthesis. Nutrigold enhance the quality of fruits & flowers. Nutrigold acts as catalyst for tuber and vegetable crops. **Dosage:** 3-4 ml per ltr of water Drip: 1-2 ml per ltr of water

Orgaz contains bio available zinc with combination of organic and amino acids and other essential nutrients. It increases the flower and fruit formation rate increases size and quality of fruit and flower. **Crops:** All type of crops. **Dosage:** 2-3ml/1.0L water use as a foliar spray Available Packing: 250ml, 500ml, 1000ml

Our Products

Crop Nutrition

Blossum is specially developed product through fermentation technology to address nutrients deficiency in plant. Blossum is, totally bio available to the plant. Blossum plays a major role in development of pollen, flowers, fruits and it is useful in photosynthesis. Blossum enhance the quality of fruits & flowers. It acts as catalyst for tuber and vegetable crops.

Dosage: 3-4 ml per ltr of water Drip: 1-2 ml per ltr of water

Rootline contains readily available Phosphorus with other essential nutrients and amino acids and organic acids. Root line promotes early root growth and seed formation, stimulates tillering, and increases water use efficiency. Increase the production of starch, sugar, oil and fat in plants.

Crops: All type of crops.

Dosage: 2-3ml/1.0L water use as a foliar spray

Rootex contains readily available Phosphorus with other essential nutrients and amino acids and organic acids. Root line promotes early root growth and seed formation, stimulates tillering, and increases water use efficiency. Increase the production of starch, sugar, oil and fat in plants.

Crops: All type of crops.

Dosage: 2-3ml/1.0L water use as a foliar spray

Feramin contains readily available nitrogen in the form of amino acids, and other essential nutrients. Feramin promotes flowering and reduces flower drop. It increases plant resistance to extreme climatic conditions like high temperature, frost, pest attack, floods and drought. Feramin improves fruit and flower quality (size, shape, weight, color, shine. etc), It increases crop yield significantly.

Crops: All type of crops.

Dosage: 2-3ml/-OL water use as a foliar spray

Our Products

Crop Nutrition

Boost Drip can improve soil structure, increase nutrient availability, stimulate plant growth, and promote root development. It can improve irrigation efficiency and reduce plant water stress. It can also help to detoxify soils and protect plants from herbicides and pests. And increase the fruit formation rate. It improves quality and size of fruit.

Crops: All type of crops

Dosage: 2-3ml/1.0L water in through drip system

Available Packing : 2.0Lit, 5.0Lit

Set drip contains all micro nutrients and macro nutrients with combination of amino acids and organic acids. It improves quality and size of fruit and increases the organic carbon in soil and increase the beneficial microbial flora. And stabilize pH of soil.

Crops: All type of crops

Dosage: 2-3ml/1.0L water in through drip system

Mega drip contains Nitrogen, Phosphorus and Potash with beneficial amino and organic acids. It increases the biological reactions in plant. It shows excellent effect on crops in all stages. It increases the quality and yield. It increases the organic carbon in soil and helps in formation of new roots.

Crops: All type of crops

Dosage: 2-3ml/1.0L water in through drip system

Brighter plays a key role in a diverse range of plant functions including cell wall formation and stability, maintenance of structural and functional integrity of biological membranes, movement of sugar or energy into growing parts of plants, and pollination and seed set. Brighter plays major role in effective nitrogen fixation and nodulation in legume crops. It improves quality and size of fruit and reduces the cracks in fruit.

Crops: All type of crops.

Dosage: 2-3ml/1.0L water use as a foliar spray

Our Products

Crop Nutrition

Cupriz activates enzymes in plants which are involved in lignin synthesis and it is essential in several enzyme systems. Increases the process of photosynthesis, cupriz play major role in plant respiration and assists in plant metabolism of carbohydrates and proteins. Cupriz also serves to intensify flavor and color in vegetables and color in flowers.

Crops: All type of crops.

Dosage: 2-3ml/1.0L water use as a follar spray

Eager contain ferrous and other essential nutrients and amino acids and organic acids. Increases the synthesis of chlorophyll and it is essential for the maintenance of chloroplast structure and function.

Crops: All type of crops.

Dosage: 2-3ml/1.0L water use as a foliar spray

Vesta contains readily available magnesium increases the chlorophyll synthesis and increase photosynthesis, It increases synthesis of fat, oil, and in protein plant

Crops: All type of crops.

Dosage: 2-3ml/1.0L water use as a foliar spray

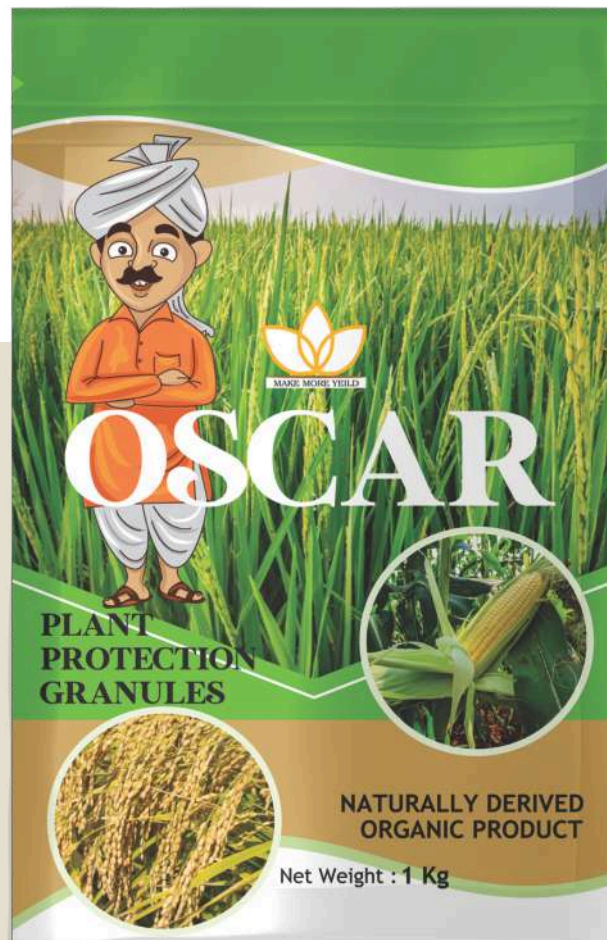

Biostud granuels contains seaweed and humic acid , pulvic and amio acid to increase crop production. Aerates the soil and promotes the growth of white roots increases the chlorophyll synthesis and increase photosynthesis, It increases synthesis of fat, oil, and in protein plant

Crops: All type of crops.

Dosage: 5kg/acre

Our Products

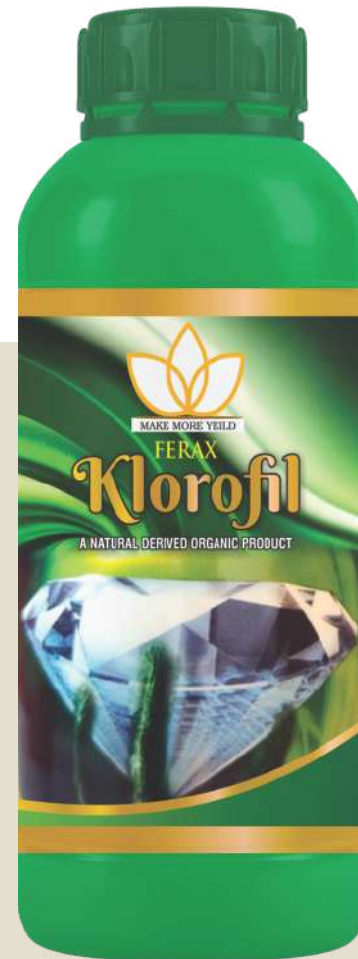

Crop Protection

Oscar is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all type of borers.

Crops : Paddy, Cotton, chilli.

Dosage: 4.0KG/acre

Klorofil is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all type of borers.

Crops : Paddy, Cotton, chilli.

Dosage: 2.5ml/Lit

Booster enhances micro - nutrient absorption into the plant. Increase enzyme activity , acts as catalyst in plant respiration. Aids chlorophyll synthesis . Detoxifies various pollutants

Crops : All type of crops

Dosage: 2-3 ml/Lit water use as foliar spray

Shield is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all fungal disease.

Crops: Paddy, Cotton, chilli, other vegetable crops.

Dosage: 2.5gm/Lit

Our Products

Crop Protection

Polaris is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against thrips, mites.

Crops: Paddy, Cotton, chilli.

Dosage: 2.5ml/Lit

Trilok is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance all type of pests

Crops: Paddy, Cotton, chilli. Vegetables

Dosage: 2.5ml/Lit

Sixer is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against thrips, mites, aphids, jassids

Crops : Paddy, Cotton, chilli and otherevegetable crops.

Dosage: 2.5ml/Lit

Europa is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all types of pests.

Crops: Paddy, Cotton, chilli.

Dosage: 2.5ml/Lit

Our Products

Crop Protection

Aveon is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against thrips, mites, aphids, and jassids.
Crops: Paddy, Cotton, chilli.
Dosage: 2.5ml/Lit

Killer Plus is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all type of pests.
Crops: Paddy, Cotton, chilli.
Dosage: 100ml/acre

Jet ncreases root, Shoot, Sheath and Pod Production in Plants Increase fruit quality.
Crops: All types of Crops
Dosage: 25 ml / acre should be mixed and sprayed on the leaves on plants

Rapid contains Nitrogen , Calcium , Magnesium . Helps in disease resistance and sustains growth during flooding and drought.
Crops: All types of Crops
Dosage: 2-3 ml / acre should be mixed and sprayed on the leaves on plants

Our Products

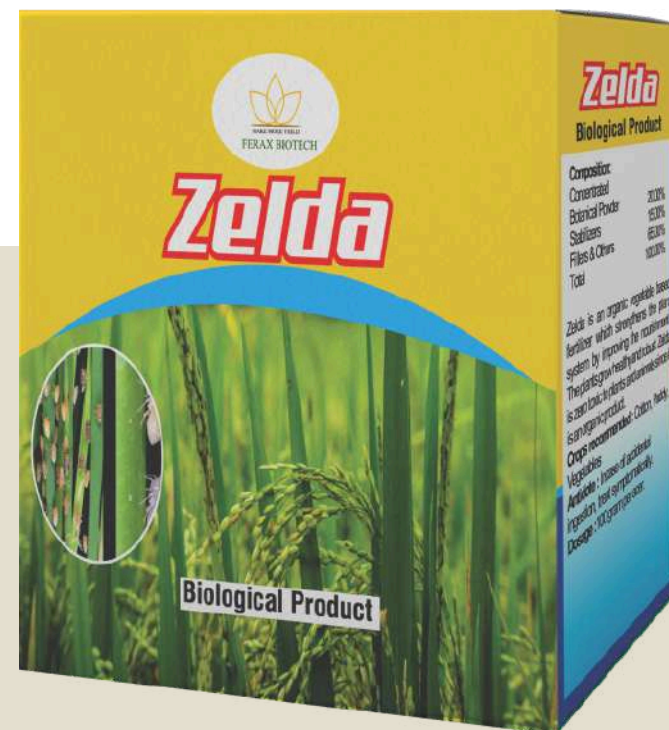

Crop Protection

Topkil is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all type of bollworms and pests

Crops: Paddy, Cotton, chilli.

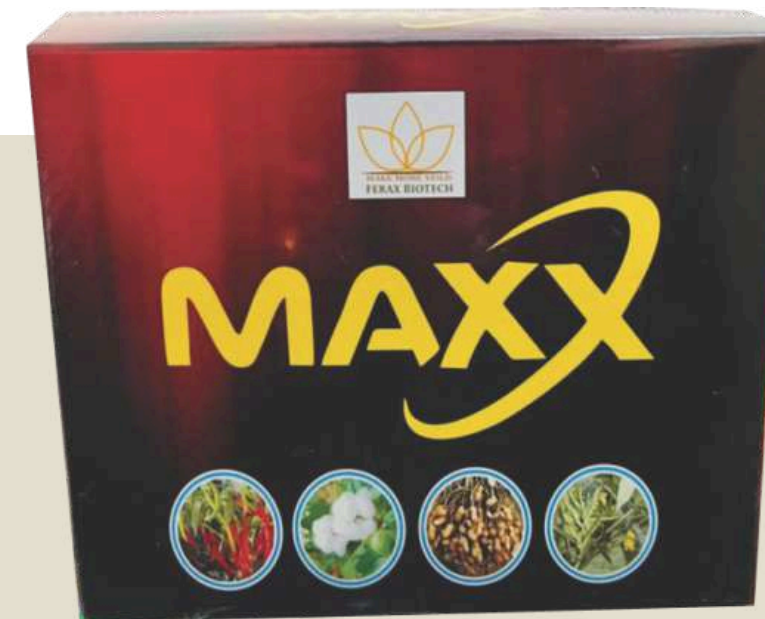

Dosage: 1.0gm/Lit

Zelda is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against BPH and other pests.

Crops: Paddy and other crops

Dosage: 100gm/acre

MAXX is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against thrips, mites, aphids, jassids

Crops: Paddy, Cotton, chilli.

Dosage: 1.0ml+1.0gm/Lit

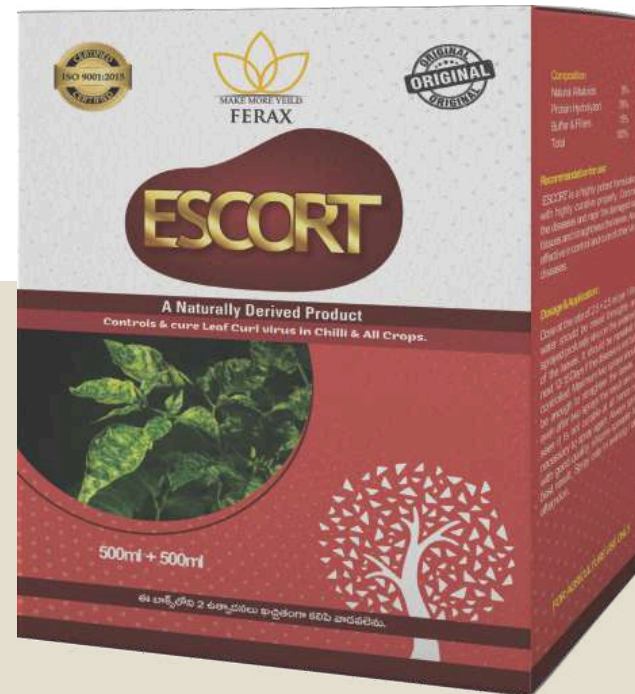

Vampire Increases disease resistance in plants. Protects against caterpillar and sap sucking curd. Reduces stress in plants.

Crops: Kandi, Pesara, Minumul, Shaniga and other crops

Application: 250ml / acre / per 100 liters of water

Our Products

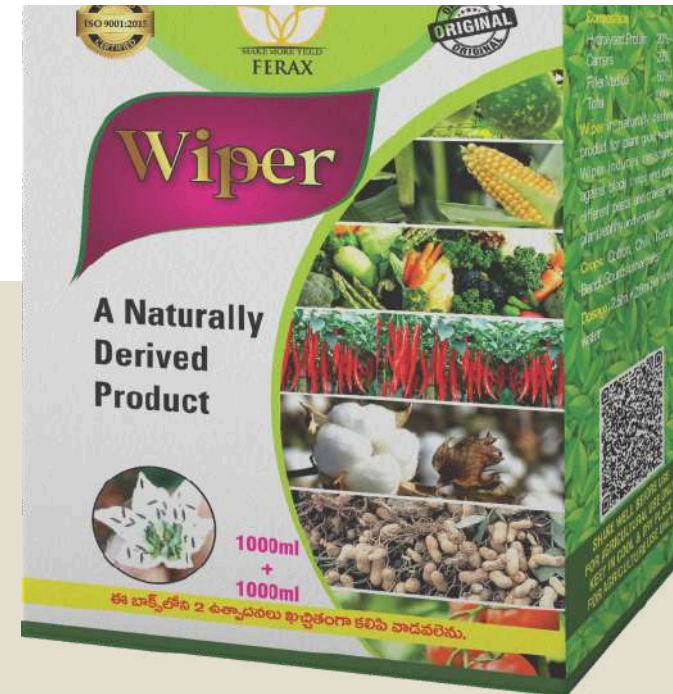

Crop Protection - Combo Packs

Escort is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all type of virus and pests.

Crops: Paddy, Cotton, chilli.

Dosage: 2.5ml + 2.5 ml/Lit

Wiper is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against black thrips, mites ,aphids, jassids

Crops: Paddy, Cotton, chilli, other vegetable crops.

Dosage: 2.5ml + 2.5 ml/Lit

Sixer is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against thrips, mites, aphids, jassids

Crops : Paddy, Cotton, chilli and other vegetable crops.

Dosage: 2.5ml + 2.5 ml /Lit

Maxx 3G is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against BPH and other pests.

Crops: Paddy and other crops

Dosage: 1 ml + 1 ml + 1 gm / lit

Our Products

Crop Protection

Tower Improves fruit/seed size by translocation of carbohydrates from leaves to fruits and seeds. Also helps address Boron and Molybdenum deficiencies. Effective in crops where excessive nitrogen has been used - stops flower and fruit/seed drop and improves productivity.

Crops: All type of crops.

Dosage: 2-3m/1.0L water use as a foliar spray

Available Packing : 250ml, 500ml, 1000ml

Atlas is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against all type of pests.

Crops: Paddy, Cotton, chilli.

Dosage: 2.5ml/Lit

Mars is a naturally derived organic product which can make the plant healthy, vigorous and stimulate the flowering .

Crops : Paddy, Cotton, chilli.

Dosage: 2.5ml/Lit

Orion is a naturally derived organic product .which extracted from neem seed It makes the plant healthy, vigorous, and improves resistance against thrips, mites ,aphids, jassids

Crops : Paddy, Cotton, chilli.

Dosage: 2.5ml/Lit.

Our Products

Crop Protection

Flores is a naturally derived organic product which can make the plant healthy, vigorous.

Crops: Paddy, Cotton, chilli, other vegetable crops.

Dosage: 1.5gm/Lit

Yodha Mycin is a naturally derived organic product which can make the plant healthy, vigorous, and improves resistance against bacterial and fungal disease.

Crops: Paddy, Chilli, Cotton and other crops

Dosage: 1gm/lit

Thor contains essential nutrients that boost root and leaf growth, enhance enzyme activity, and help plants overcome stress. It maintains hormone balance during drought, flooding, and extreme temperatures.

Application: For all crops

Dosage : Mix 2-3 ml of THOR per liter of water and use as a foliar spray

Future Growth

As we look to the future, Ferax Biotech is poised for continued growth and innovation. We remain committed to advancing sustainable agriculture practices, exploring new markets, and delivering value to our customers.
